From the Editor . . .

Bob, K9RHY

Jim Price, K6ZH, provided all the material for this “Special Edition” of the SDDXC Bulletin. He asked me to help him share it with the membership in anticipation of the Nostalgia Night (this week’s meeting on Wednesday evening).

SAN DIEGO COUNTY AMATEUR DIRECTORY, 1955 – A TRIP DOWN MEMORY LANE

“Could you help me find a home for some radio and test equipment?” I was asked this recently by a fellow “student” in an exercise class that my wife Joan, N6KIM and I attend each week. I guess she had overheard that I am a ham. Long story short: her boyfriend (more on him later) wanted to get rid of the last vestiges of his days as a ham and tinkerer. The stash consisted of several 2 meter transceivers (TR-7400 and some early Icom), and Heathkit (mostly) test equipment – an oscilloscope, prototyping board, variable power supply, etc.

You can probably guess where the radios went – some place called the Crest Radio Museum! At least one of the radios was a “new one” for Pat, WA6MHZ.

The test equipment went to a friend of ours who owns and runs the Goldfield Radio Museum in Goldfield, NV – where we have a vacation home. He seemed pleased to add these goodies to his very large collection of radios, TVs, radio / phonograph consoles, and so on. If you’re ever travelling along Highway 95 between Las Vegas and Reno, stop in and say Hi to P.K. Higgins, KE6URT, the owner.

One final “goodie” in the stash was a copy of the **San Diego County Amateur Directory**, published by the Coronado Radio Club in 1955. It’s like a mini-Callbook, specific to San Diego County, with all ham radio operators listed first by callsign and then by last name. It also contains lists of clubs, nets, appointed officers, and some very cool advertisements!

In an incredible bit of serendipity, Mike, NA6MB, asked me to be part of the panel that will discuss the history of the San Diego DX Club at the January meeting. So, the timing of this directory falling into my hands couldn’t have been more perfect!

As I read through the Directory, I found several callsigns that rang a bell. Below I’ll share my experiences with some of them. With one exception, the callsigns in **bold** are in the book.

The owner of the book. The ham who had all of these materials is **Ray Smith, W6DVJ**. Ray is a very robust 84 year old who lives in the San Carlos area of San Diego. He told us that he’s had that call for 70 years! Perhaps some of you “old timers” know him.

About my San Diego County “roots.” I lived with my parents in Fallbrook from 1958 to 1962; my Father was the High School Principal there. I had already been bitten by the broadcast band DXing (as well as TV DXing) bugs at our previous home in Dinuba, near Fresno. But in Fallbrook, I started seriously doing AM radio DXing. Then our neighbor gave me an old Grunow console model AM / shortwave radio (with the big round dial, push buttons, but no green eye). Soon I was logging Radio Moscow and all of that, but then I heard guys talking to each other. My Dad said they were ham radio operators. I knew there was a guy in our High School band who was a ham. So I witnessed my first QSO in the shack of **Monty Coughran WA6CUW**, and I was hooked. His brother and mother were also hams. [Monty’s not in the book as he got his license in the early 1960s]

Enter my first Elmers: Harry, W6LKC and Mable, W6YZV, the Fields in Fallbrook. I got the novice study guide, and they taught me the basics of ham radio. My Dad had already taught me the code – he was a radio operator in WWII. But with Harry and Mable, I got more proficient at it. They are listed in the Directory. Their son, Gene, was a classmate of mine in Fallbrook and he now holds the call W6LKC.

We moved to Santa Maria, CA in 1962, and I got my novice (WN6DPV) in 1963. I upgraded to WB6DPV later that year. [I got my K6ZH call in 1977 during that brief vanity call window.]

Then came traffic handling. My “new” Elmer in Santa Maria, Jim Wiley, WA6DRO (now KL7CC), was active on Mission Trail Net (MTN), a 75 meter traffic net that is still around(!) Some of the regulars on MTN were in San Diego, notably **Tony Mozier, K6BPI** (a real “traffic guy”), **Bill Gilmour, W6VTV** – “Victor Tear Victor” - in La Jolla (actor Lew Ayres’ father!), and **Hal Eberle, W6KUU**. Hal was our Time and Frequency Standard (MTN was an A.M. net then). Every night he would signal that it was 7 p.m. (he’d play WWV for about 15 seconds). And then after an announcement, he’d put out a carrier for 30 seconds – the first 15 seconds so that people could spot their VFOs, and the second 15 seconds to load up the transmitter finals. [I’m not kidding!] Tony, Bill, and Hal are listed in the Directory.

And much of the traffic that MTN handled was originated by **W6YDK** (Young Doctor Kildare), the club station at MCRD San Diego. If you were anywhere in the traffic handling arena, you ran across the “arrived safely MCRD San Diego, will write soon” messages that flooded the nets each night! W6YDK is in the Directory.

One more traffic-handling note. I was also a member of the Post Office Net (PON) which actually relayed ‘mail’ on CW for the U.S. Post Office! The primary members were P.O. employees, many of them mail carriers. One of them was **Eddie Keating, W6QLJ**. After I moved here, I met him in person, since we’d been on the net together for several years. Eddie took me under his wing and we had kind of a father-son relationship, at least for radio. He had just purchased an early Yaesu HF transceiver, maybe an FT-200. And he was quite the “talk of the town!”

Local Clubs. The Directory lists no fewer than 15 ham radio clubs! Among them were Convair (**K6DBS**), North Shores (**K6HAI** – I was a member there in the ‘70s), Palomar (**W6NWG**, sound familiar?), Point Loma (**W6RDF**, ditto), and the San Diego DX Club.

About the Point Loma Amateur Radio Club (PLARC). I started to work at the Navy Lab on Pt Loma in 1971 – first NUC, then merged with NEL to become NOSC; today it's SPAWAR Systems Center. But through it all, PLARC and its call W6RDF, have been in existence. People who I recognize in the Directory as having been in the club are **“Chop” Kerr, K6DQI** (as far as I know he's still around – he has volunteered at the San Diego Railroad Museum in Campo for many years), **Hal Crispell, W6TZV**, and **Tom Bayless, W6NLK**.

I first joined the club in the '70s, and I was part of several major contest operations, including Field Day. A number of SDDXC members participated in these activities including Rick, N6ND, Art, K6XT, Jim, W6YA; and later Bud, N7CW and John, K6AM. Some of the award certificates from back then are still on the wall. PLARC is once again active, especially in contests.

About the San Diego DX Club. In the Directory, the meetings are shown as being on the 2nd Tuesday of the month at 1930 hours in various locations. The point of contact is shown as **Don Stan-sifer, W6LRU**. As I recall, Don lived on Pt Loma, near Dana Jr. High School, and worked at the Navy Lab. I suspect many of you remember him. He was one of my earliest memories of hams in San Diego when I moved here.

The gent who is generally credited with founding the DX Club was **Dick Shanks, W6BZE**. He ran an electronics store on India Street called Shanks & Wright. I spent a lot of time and money in that store back in the day! Dick was with us until not all that long ago. I also noted in the Directory the call of **W6UQF, Charlie Oakes**. Charlie was a very active contester – noted for long hours of butt-in-the-seat! He became an SK a few years ago as well.

Of note: the only callsign I found in the Directory that I recognized as still issued to the same person today is:

Ta Dah – **Dick Garren K6GAK!!** In 1955, the 6-land novice callsigns ranged from KN6GEK to KN6JKS. So he must have gotten his license call in 1954 or so, over 60 years ago!

I also noted two other SD DX Club callsigns in the Directory:

K6AM, Clayton Bullen, 200 Bay View Way, Chula Vista; phone CV 1575-W (probably a party line!)

W6HDG, Catherine Woods, 2311 Seaside St, San Diego 7; Academy 2-7611.

So, John and Howard, your callsigns have “come home” with you guys!

The Certificate Hunters Club (CHC). I have to say something about **Clif Evans, K6BX**. Clif lived in Bonita, and he was the driving force behind CHC. Basically you could join CHC if you had accumulated more than 25 ham radio-related awards. He put out a loose-leaf booklet that listed literally hundreds of awards from around the world. While I'm not sure I ever actually met him in person, I was certainly active in my quest to become a CHC member in my early days of ham radio. I do have a QSL from him dated 1969.

Advertisements. There are about a dozen ads in the Directory which no doubt helped to pay for some of the printing and distribution costs. Some, but not all, of the ads were from radio and parts stores. The only name that I recognize personally is **Western Radio** which at the time was at 1415 India Street. That's where I remember it being in the early '70s as well. That was the HRO at the time! And Western was around in some form or other for many years, maybe still is.

Other radio and parts stores that have advertisements in the Directory are:

Ham Shack, 2nd and B Street, Ted W6HLP, Bill, W6IKM, Leroy, W6JLN

Frankenberger Radio & TV Lab, National City, Byron, W6TEH

Ferer's Surplus, Pacific & Market

Silvergate Radio Supply, 2305 India St., Al, W6ZRS

Radionix, 1893 San Diego Avenue

Henry Radio in Los Angeles, Ted Henry, W6UOU

Perhaps some of you "old timers" can remember these stores.

Summary. This little book is but a snapshot in local ham radio history. But I was pleasantly surprised how many people I recognized with whom I'd had a personal experience in ham radio. The phone number listings (e.g. Cypress 6-3817), the city zones (e.g. San Diego 7), and the lists in the ads of ham gear manufacturers (e.g. Hallicrafters, Collins, Johnson, National, Hammerlund, Central Electronics, Gonset) are all period "flashbacks" that really transport me to my "kitten-hood" days in ham radio. What a fun trip!

Jim, K6ZH

What follows is a reproduction of selected pages of the 1955-56 San Diego County Amateur Directory originally published by the Coronado Radio Club.

Enjoy!
